

TEVTA SERVICE CENTRES

TEVTA Service Centres have been established in relevant industrial cluster of Leather, Metal, Ceramics, Woodworking, Textile & Agriculture. With a prime objective of encouraging industrialization and creating economic opportunities, these centres are highly recognized for cluster specific training programs, common facility services and advisory services.

Specialized Technical Training

Our training programs provide real time production exposure in unique & most demanded skills, ranging from 3 months to 36 months on the latest and sophisticated machinery with highly committed faculty.

Join OUR TRAINING PROGRAMS FOR

- Unique and Most Demanded Skills
- Real Time Production Exposure
- Guaranteed Cash Prizes to the Position Holders
- Incubating Entrepreneurial Skills
- Ensuring Better Economic Opportunities Local & Abroad
- Grooming Personality & Professionalism

36 MONTHS	Leather Tech, Footwear Tech, Agriculture Sciences, Glass & Ceramics Tech, Furniture Design & Tech
24 MONTHS	Wool Tech, Cabinet Making, HVACR, Machinist, Finishing Tech, Draftsman Mechanical, Textile Machinery, Repair & Maintenance
12 MONTHS	Leather Processing, Shoe Designing & Modeling, Aluminium & Steel Fabricator, Welder & many more...
6 MONTHS	Industrial Stitching, Machine Operator, Textile Designing, Industrial Electronics, Leather Garment Stitching, Leather Pattern Making, Leather Glove Pattern Making, Leather Shoe Upper Stitching, Kashigiri, Material Testing & Heat Treatment, Inspection & Quality Control, AutoCAD, Computer Aided Design (Leather) & Many more...

Common Facility Service

Our common facility services are source of facilitation to the small & medium enterprises and weaker industrial setups for value addition of their products through sharing of our cutting edge technology.

Common Facility Services

To provide services to the industry on machinery/equipment of the centres for value addition to its products

Wood

Seasoning of Wood | Sharpening of Saw Blade | Dowel Boring / Cutting Of Lamination Sheets/ Deodar Beading / Edging Of Deodar Wood | Pressing of Veneer | Sharpening Of Jointer Blade

Metal

PVD Coating Machine | Laser Welding & Marking of surgical Instruments | Heat Treatment of Surgical and Cutlery items | CNC Machining | Non-Conventional Machining | Gear Cutting & Surface Grinding | Tools, Die & Mold Making | Spark Erosion Machine | Centerless Grinding Machine

Leather

Stacking of Sides | Shaving of Sides / Hides | Setting of sides| Samming Setting Of sides | Embossing Designs on leather | Skiving | Hydraulic Pressing | Laboratory & Chemical Testing | Clicking Press | Eyelet Punching

Ceramics

Body/Slip | Green Product / Casting, Molding | Kiln firing Service | Biscuit ware

Our Advisory Services

Our advisory services are notable for providing solutions as per best international practices to the entrepreneurs and the industry for upgrading their infrastructure & value addition of their products.

Advisory Services

Render technical expertise to the industry for value addition to its products

Wood

Machinery Demonstration, Selection of Machinery
| Cost Calculations| Product standardization
Feasibility Reports for Woodworking units| Introduction of Technology
| Safety measures, Quality control | Maintenance of machinery

Metal

Material Selection for Surgical Instruments| Design of Different Surgical Instruments| CNC Machining Centre| CNC Wire Cut Machining | Laser Welding/Marking| Heat Treatment i.e. Hardening, Tempering, Annealing of Surgical Instruments

Leather

Preservation of wet-blue stock, Dyeing process| Fat- inquiring process
| Wet-back of tanned leather| Fixation of chemicals| Re- charring of wet blue
| Neutralization of tanned leather

Agriculture

new produce or improvement of an existing produce| Dissemination of advanced farming techniques Advice on balancing modernization and replacement of facilities
/ Installation/commissioning and correct operation
